Subject: RE: for your review -- revised draft agenda for WA PPA water progress meeting

Thanks Michelle. Re my TMDL suggestion and the feedback from Laurie, the issue is that sometimes the staff or the particular program managers are communicating well but the broader water management team isn't aware of all that's happening in that one program area. So meetings like this can help the broader group understand why there may be a particular spotlight/resource drain in one area vs another. I'm fine with keeping the agenda as is but would like us to incorporate this topic into the discussion tomorrow about the desired outcomes for the meeting.

I spoke with Laurie Mann and she is in regular communication with Ecology on all TMDLs. They also have a quarterly meeting. She did suggest as agenda items both the Columbia River TMDL (which I also have discussed with ML) and Deschutes TMDL. So I will add those.

Also, Angela, I left a vmail for Contreras to confirm nothing from his shop.

I will send out next draft shortly for our discussion tomorrow.

Thank you both for your input.

Angela – thanks

I just looked at your comments and will take your suggestions on the PPA component. (thank you)

I really like the idea of discussing more frequent check ins – perhaps a quarterly call with a specific agenda – in order to be able to include a smaller group (not to be exclusive, but to make it possible to get something scheduled 😊)

If we don't have enough time, we could cover the TMDLs briefly and do a follow up in depth conversation – on one or more of the TMDL issues. A suggestion

Just read this after hitting send on my email. Some of my comments echo yours below. I agree that there's a lot to cover so it may warrant talking about how to continue meeting more regularly since we have a lot of topics to share with each other. I suppose that could be another comment (though you may already intend it) -- at the end of the meeting we should talk about how regularly we want to have these types of meetings or conference calls. Thanks!

Hi Michelle

Looking like a great agenda – lots to cover.

As we just discussed, it would be good to discuss the CR TMDL litigation at the meeting. In addition, do we want to talk about the Deschutes - our approval/disapproval and next steps (Allyn reported on this in the ET today)?

They could both fit under litigation updates, or be separate items

The rest looks good – if Mary Lou wants me to do the update on the Columbia River Basin Restoration Act, I can cover that, and have Peter cover the NEP portion.

Lucy

Subject: for your review -- revised draft agenda for WA PPA water progress meeting
Importance: High

Hi Everyone – As discussed at OWWET this morning, please find attached a revised draft agenda for our upcoming PPA water meeting with Ecology.

1. **Agenda final review** – I have incorporated revisions from Ecology and a few OWWET managers to this version. To help guide your review, please look at the following 3 things and let me know if you have any changes, or, are ok as is, **by COB tomorrow**:
 - o agenda topic and associated detail
 - o time allotted for topic
 - o order of topics
2. **Talking Points** – we will discuss talking points this Thursday during OWWET from 10 – 10:30 am. Call in # is Ex. 6 Personal Privacy (PP) access code Ex. 6 Personal Privacy (PP)
3. **Meeting logistics** – Start time is 9:30 in Lacey. I have left it up to Seattle folks and Bella to make car/van pool reservations for transportation. I/Lucy/Alison can greet you and escort you to the room. We will break for one hour for lunch. You can bring your own lunch or buy something at Ecology's cafeteria. And, as always, you are welcome to use WOO facilities (coffee room, conference room, ...) for any part of your stay while here. Meeting end time is scheduled for 2:00 pm.
4. **Need to call-in?** – If you won't be able to attend in person, we can set up a call-in number. I'm thinking of Cara or Mary Lou?

Let me know if you have any Qs or if I missed anything.

Thanks,

Michelle
